Dear Harold:

I recently entered into an agreement with a publisher(below listed), to update & revised the auto-biography already in print. I mentioned your name to him so possibly he might contact you. He is also going to incert in the book a picture section. In this respect I told him that years ago I had given you a role of film of me taken in Brushy Mountain. Possibly he would pay you for one of the pictures and or I could sign some of them for you & the publisher could use one in the book.

I am still receiving documents from the FBI under the FOIA. However the JD say's it has lost its entire file on Percy Foreman...I guess in a paper schedrer.

I spoke to Jerry a few days ago, the ace investigator & TV performer. He said he was doing a record, or maybe an album, and he would send you an autograph copy for xmas.

I have been transferred & placed in segregation (last February) for "thinking about escaping"...Dude has to watch what he thinks around here.

That's about it. Thust everything is going Ok in Frederick.

Sincerely
J.E. Ray
